ACHIEVEMENTS

- CodeChef Rating 1458 (div. 3), Highest Rating: 1486
- HackerRank: 4* in C++, 3* in Python

PROJECT WORK

Tic - Tac - Toe Game

Jan'24

- Developed an interactive Tic-Tac-Toe game using HTML, CSS, and JavaScript. Implemented game logic, user interface design, and responsive interactions to enhance user engagement and experience.

Currency Converter

Feb'24

- Built a currency converter web application using HTML, CSS, and JavaScript. Implemented real-time exchange rate calculations and a user-friendly interface, integrating API data to provide accurate currency conversions.

Amazon Website Clone

JUL'24

- Developed a static e-commerce website clone of Amazon using HTML and CSS. Focused on creating a responsive design that replicates the core layout and visual elements of the original site. Ensured cross-browser compatibility and a user-friendly interface.

Razorpay Website Clone

DEC'24

- Created a static clone of the Razorpay website using HTML and Tailwind CSS, focusing on responsive design and clean UI. The project includes key sections like the hero, features, pricing plans, and footer, showcasing proficiency in building modern, mobile-first websites with minimal custom CSS.

CERTIFICATION

- Object-Oriented Data Structure in C++ (via Coursera)
- C++ Intermediate (via CodeChef)
- Object Oriented Programming in Java Course Online (via Scaler)
- Python Basic (via HackerRank)
- Learning the Basics of ABAP Programming on SAP BTP (via SAP)
